The province  
of Antwerp

University  
of Antwerp

Science Park  
University of Antwerp

## A STIMULATING BUSINESS PARK FOR INNOVATIVE ENTERPRISES

The University of Antwerp Science Park is an initiative of POM Antwerp (the Development Authority of the Province of Antwerp) in association with the University of Antwerp.

This unique site offers space to suit spin-offs, small to medium sized enterprises and multinationals operating in the areas of **environmental** and **life sciences**. The deliberate grouping of **knowledge intensive companies** leads to cross pollination and synergy.

### SPACE

The science park can be reached via the A12 and E19, but can pride itself nonetheless on an **exceptional location** amid greenery and a series of former clay pits.

Numerous **location options** ensure that the park can offer every entrepreneur the most appropriate solution. Start-ups and small growth companies will find all they need in the incubator. Once they have grown out of this phase, they can occupy larger office spaces in the development building or opt to take care of their own development.

#### **Darwin Incubator**

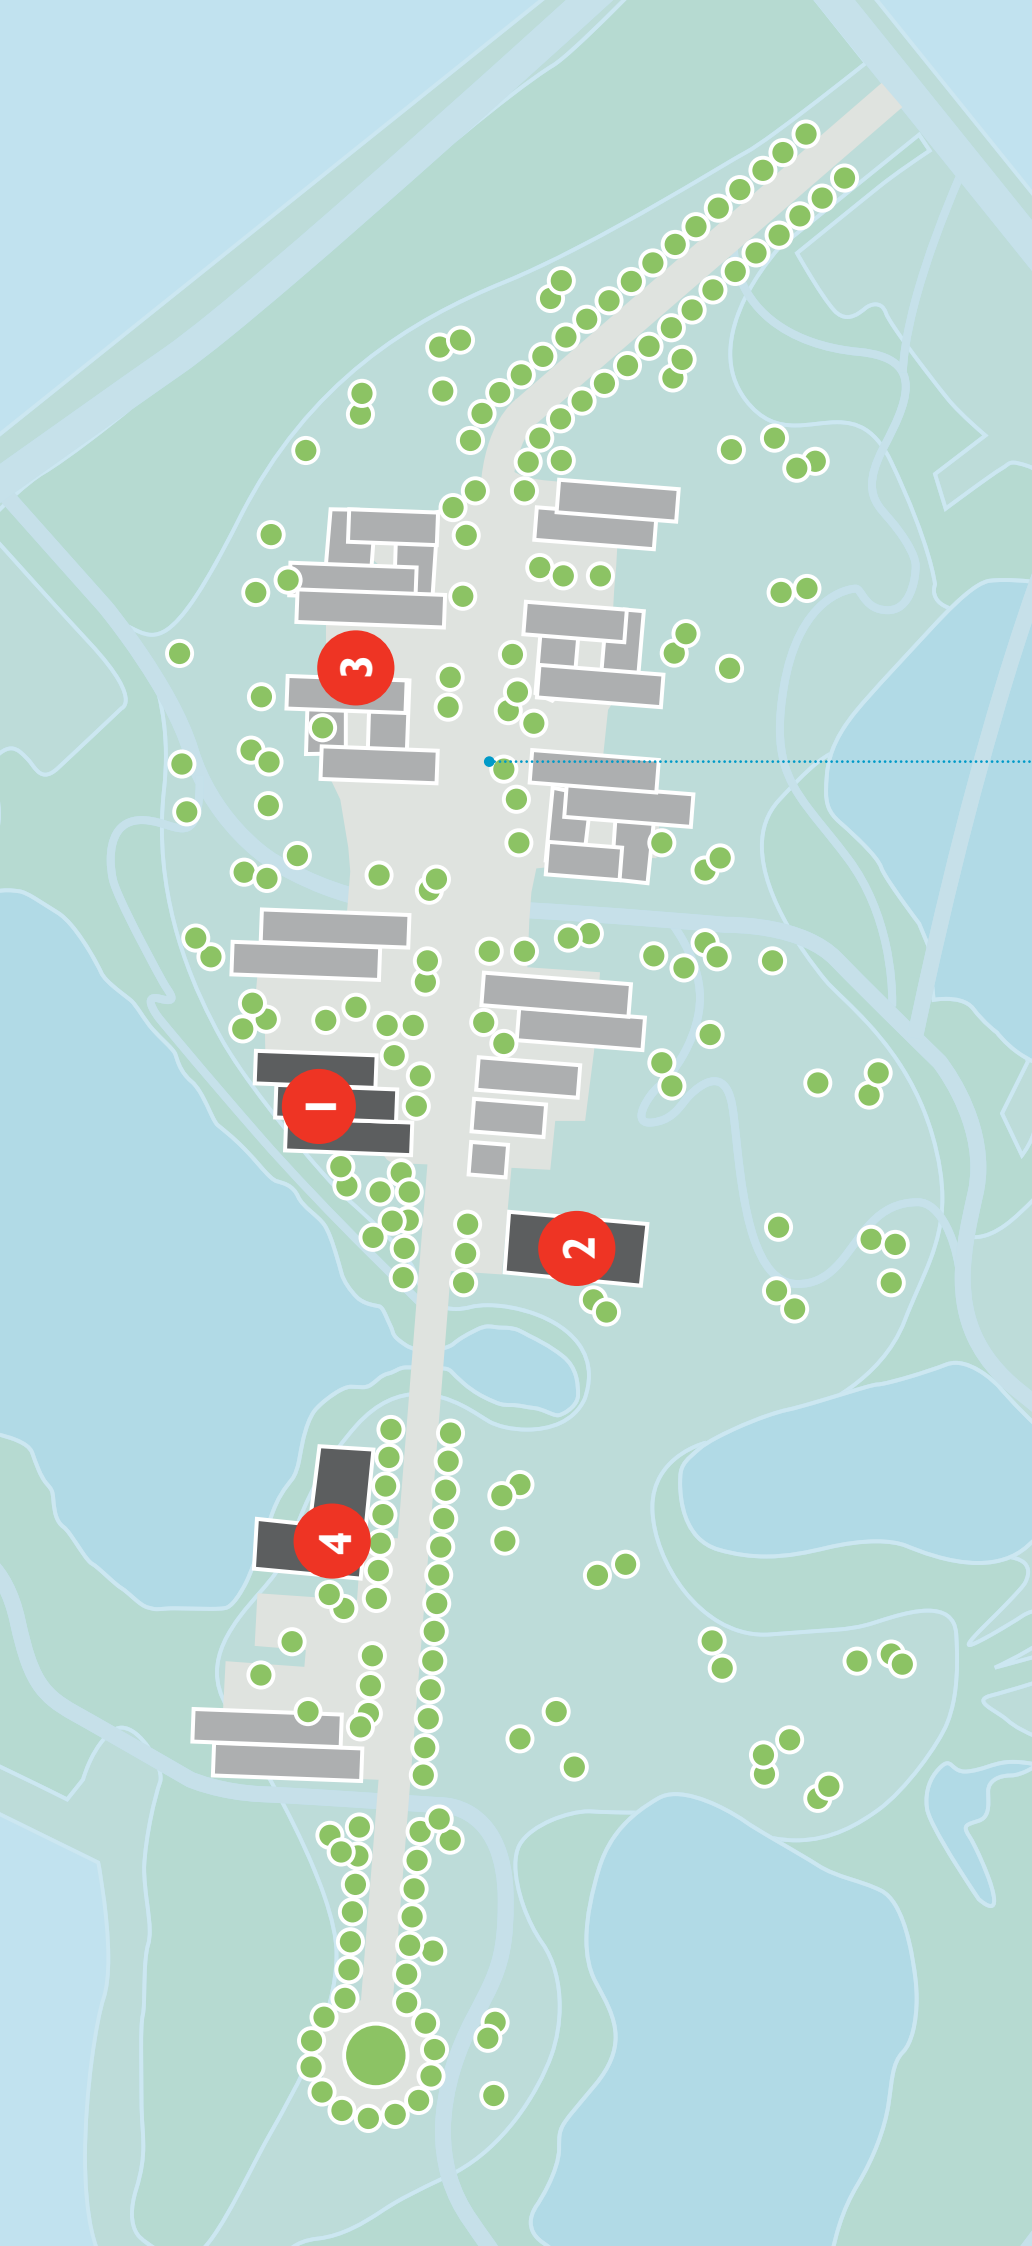

- Opens in the spring of 2015
- Office space and laboratories of various sizes
- Conference infrastructure, welcome & reception, cafeteria, auditorium, car park
- Administrative support
- Flexible service contracts

#### **Archimedes Development Building**

- Flexible office space starting from 200m<sup>2</sup>, option to install laboratory
- Car park
- 3-6-9 commercial leases

#### **Development**

The science park offers every opportunity for new buildings. Depending on the specific space requirements of your business, we can allocate you the most appropriate plot within the bounds of the master plan. We will also consider the separate purchase of modules or floors in buildings planned for construction.

# MASTER PLAN SCIENCE PARK UNIVERSITY OF ANTWERP

1

Incubator Darwin:  
service contracts

3

Custom project  
developments:  
for sale

2

Development building  
Archimedes:  
to let / for sale

Project development  
Copernicus:  
sold

● *Innovation means cooperation*

## FACILITIES

The incubator opens in 2015. All businesses established at the park may make use of the shared infrastructure in this building, such as reception, flex-offices, meeting rooms and conference facilities.

Scientists, entrepreneurs and students come together in the cafeteria, the ideal place to meet.

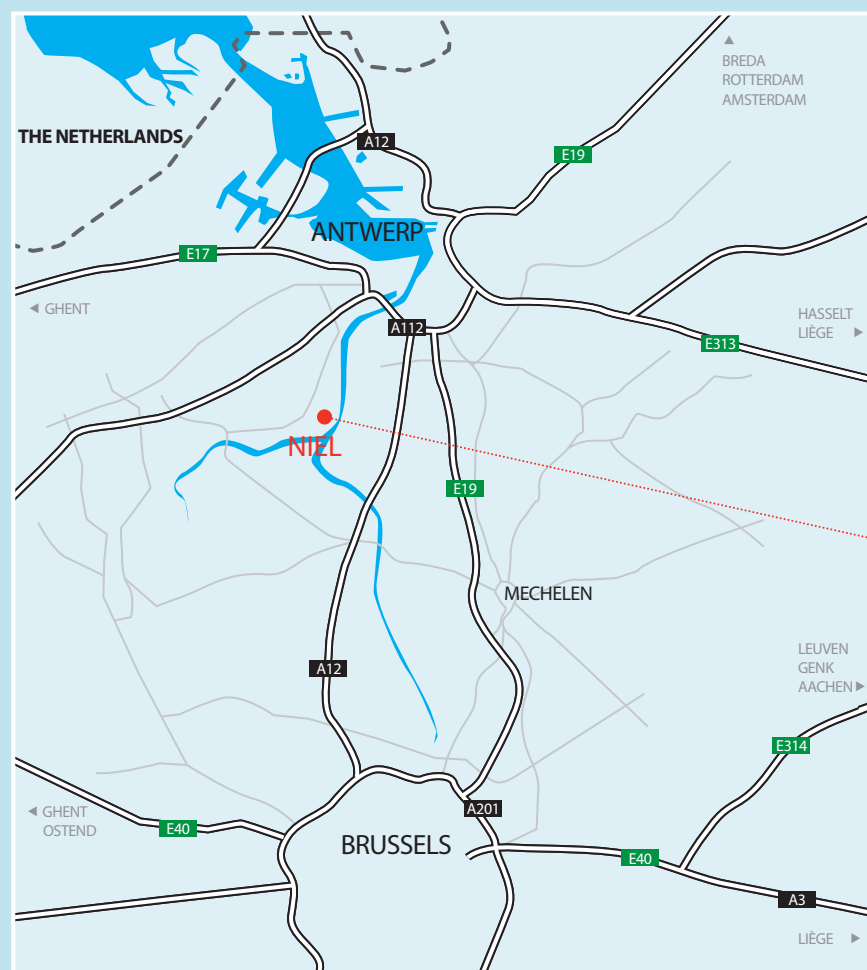

## AN INFORMATIVE NETWORK

### Expertise by University of Antwerp's Interface Department

- tap into the right research expertise, with a view to setting up collaborations
- introduction to the innovative technologies developed within the Antwerp University Association

### Professional partners

- network of specialists
- interesting calendar of events on themes such as HR, taxation and business strategy
- pilot companies through the landscape of government services and grant providers
